Strategic Plan:

اپنا بینک

The management has developed and is implementing a multi-faceted plan to overcome the financial and operational difficulties faced by the Bank. Salient features of the same are as under:

❖ **Commitment by the Sponsors and Injection of Further Equity:**

The Sponsors demonstrate their unwavering commitment to support the Bank. They have also issued a formal letter of support to the Bank's management, pledging to provide the requisite funding to the Bank. They have injected funds of PKR. 500 million during the year in shape of share deposit money, bringing the total share deposit money to PKR. 2,350 million. This funding is enabling the Bank to meet its maturing commitments and to expand its advances portfolio and is leading to increased markup income and improved financial position

❖ **Increasing Secured Advances Portfolio**

The Bank is prioritizing the expansion of its secured advances portfolio. Significant growth in our advance's portfolio will enable the Bank to significantly increase its markup income, covering markup costs and other expenses, and ultimately improving financial position of the Bank.

❖ Recovery of Non-Performing Advances:

The non-performing advances were largely a consequence of the unprecedented economic downturn following the Covid-19 pandemic. As full provision has already been made, therefore, significant additional provisions are not expected in future years and recovery of such advances will improve the financial condition of the Bank. Management is proactively pursuing the recovery of such advances, and have recovered PKR. 347.3 million in principal from these loans in year 2025 and has also made recovery of PKR. 20.4 million subsequently till January 2026. These recoveries are also enabling the Bank to further expand its secured advances portfolio by utilizing these recovered funds.

❖ Reducing Cost of Deposits

Due to reduction in policy rate by Government, the cost of deposit (COD) of the Bank has been reduced, and, its impact started reflecting from the current year. The management is also proactively implementing strategies to attract a higher volume of corporate customer deposits into current accounts, offering competitive incentives and introducing innovative products. This approach is expected to yield a significant increase in current accounts in future and hence, reduction a further reduction in the cost of deposits, leading to a positive impact on the Bank's overall financial performance and profitability.

❖ Optimization of Operations and Reduction of Costs

The Bank is implementing strategic measures to optimize its branch operations, including the closure of non-productive and non-strategic branches, to effectively control costs. Additionally, the management is focused on streamlining administrative expenses without compromising the Bank's operational efficiency. These initiatives are expected to have a positive impact on the Bank's financial performance, enhancing its overall profitability.

The management is pleased to note that the measures implemented have started yielding positive results, as reflected in the current year's performance. Building on this momentum, the management remains confident that continued execution of its strategic plan will further strengthen financial and operational performance in the coming years
